AVALON | **CROWDSTRIKE**

Avalon + CrowdStrike

A Perfect Union

In the battle against today's threats, integration and automation can help you stay ahead of the adversary. Working together, the integration between Avalon and CrowdStrike empowers your security teams to easily visualize and enrich threat intelligence from CrowdStrike and other preferred sources within a single Avalon workspace. Avalon is the first platform built to combine link analysis, collaboration and reporting processes into a seamless flow - streamlining the investigation process and helping analysts work more efficiently.

Integration Highlights

Integrate Diverse Data Sources
Conduct investigations efficiently by seamlessly integrating threat intelligence from CrowdStrike Falcon X and other sources into a single Avalon workspace.

Interact in Real-Time
Enable real-time, secure collaboration across teams - or across your industry - to eliminate silos and increase analysis efficiency.

Visualize Threats and Connections
Quickly visualize and enrich threat data from CrowdStrike to easily discover and understand data relationships.

Deliver Results
Say goodbye to email chains and manual administrative tasks by easily creating, reviewing and delivering finished intelligence directly from Avalon.
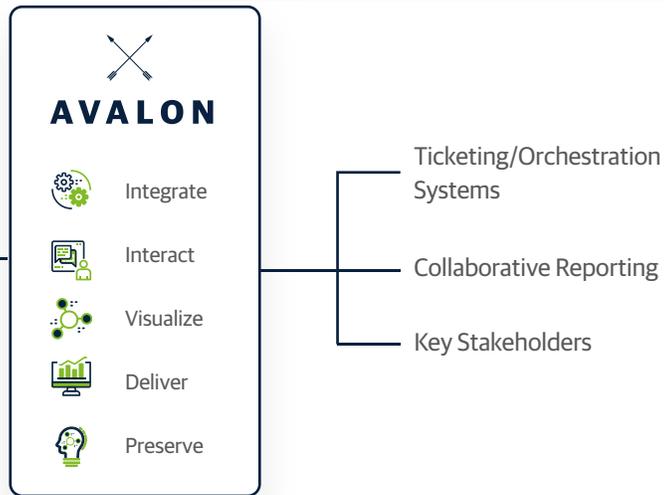

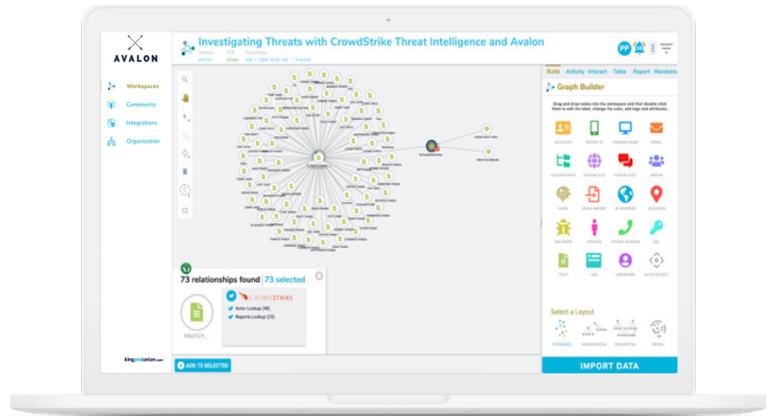

Preserve Investigations
Create a centralized knowledge repository to maintain the latest investigative intelligence that can be utilized for future investigations.

Integration Benefits

- Quickly unify, visualize and enrich threat intelligence in a single workspace to better understand data relationships

- Increase analysis and reporting efficiency - recouping 200+ hours per analyst per year

- Easily deliver the reporting to key stakeholders throughout organization

- Enable analysts to focus on what they do best - security - instead of administrative tasks

- Preserve past analysis and use it to enrich future investigations

Streamline the Security Investigation Process

Avalon is the first enterprise platform built specifically to integrate link analysis, collaboration and reporting into a single, interactive platform. This helps security teams spend less time on manual, time-consuming administrative tasks and more time on security

King and Union

King and Union enables security teams to easily create and deliver the right intelligence to the right person across all levels of their organization by unifying data from multiple tools and results from investigations into a single cyber analysis delivery platform. With our platform, Avalon, security teams can quickly visualize threat data and investigate together in real time, and once complete, efficiently create and deliver the finished intelligence required to key stakeholders. Avalon reduces the time on manual, administrative tasks, leaving analysts more time to focus on security, and empowers organizations to take full advantage of the security investments they've made - in people, information and technology.

Crowdstrike

CrowdStrike® Inc. (Nasdaq: CRWD), a global cybersecurity leader, is redefining security for the cloud era with an endpoint protection platform built from the ground up to stop breaches. The CrowdStrike Falcon® platform's single lightweight-agent architecture leverages cloud-scale artificial intelligence (AI) and offers real-time protection and visibility across the enterprise, preventing attacks on endpoints on or off the network. Powered by the proprietary CrowdStrike Threat Graph®, CrowdStrike Falcon correlates over two trillion endpoint-related events per week in real time from across the globe, fueling one of the world's most advanced data platforms for security.
